

# the glassbox organization

countries are losing influence, corporations must step in

**153** of the top **200** economic entities are corporations

[ **65%** of people say government is the most broken of all US institutions ]  
 [ **7/10** people believe the government is failing to fight corruption ]

**Generation Expectation**

**75%** workers age 18-34 say they expect their company to take a stand on political issues

**Hostile Digital World**

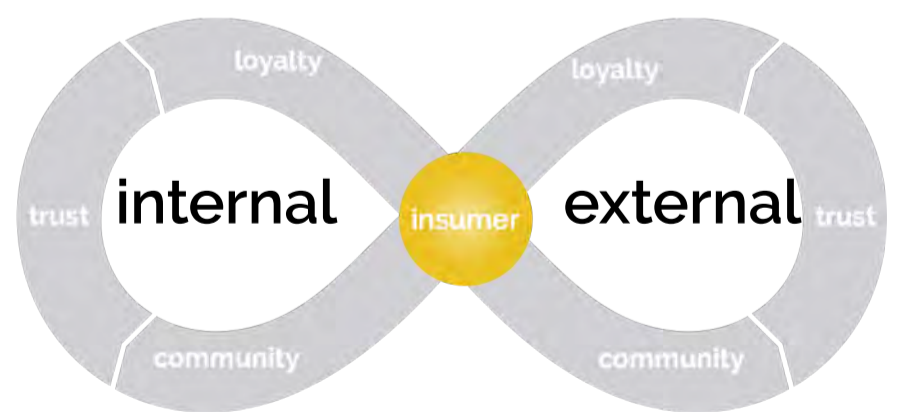

**7.8B** records exposed in 2017, the worst year for data breaches to date. 62% of hacked users blame companies

**Data Deluge**

**31B** connected devices in 2017. People don't GO online anymore, but EXIST online

gap left by government ► new corporate responsibility

corporations are the new **nation-states**  
 just as a country is only admired if it is loved by its citizens,  
 consumers will only love a company if its employees do first
